

Day 3 : HTML Text Element, and Text Formatting

Question 1: Basic Text Element

- Create an HTML document with a heading that says "My Web Page" (use an appropriate heading element) and a paragraph introducing yourself with your name, age, and a short description.

Question 2: Heading Structure

- Build a webpage that includes a main heading saying "Important Announcement," followed by three subheadings each representing a section of the announcement - "Date," "Event Details," and "Venue."

Question 3: Emphasis and Strong

- Design a webpage about healthy habits. Use the `` tag to emphasize the importance of each habit and the `` tag to highlight the most crucial habit for good health.

Question 4: Line Breaks and Horizontal Rule

- Develop a webpage that displays a poem. Use line breaks to separate the lines of the poem, and include a horizontal rule to visually separate different stanzas.

General Submission Notes:

- Keep the code simple and concise.
- Include comments where necessary.
- Ensure proper indentation and formatting in your HTML.
